Dear Property owner:

I thought the best way to keep you all informed would be send you a letter and let you know where we are with the Menotomy Road project.

As of today, we have paved the first 2 miles of roadway and hauled and spread gravel over the last mile. I've contacted F. R. Carroll, our paving contractor, and they will be fine grading and compacting that final mile to prepare for paving. The hope is to pave that last mile later this week, weather permitting.

While the road is being paved, the Highway Department will move to the Farnsworth Road for another town road project. We expect to be away from the Menotomy Road area for about 2 weeks. As soon as we complete the Farnsworth Road work and some sidewalk repair, we will return to Menotomy Road. When we return, we will spread loam on the sides of the roadway, plant grass seed, and spread hay over the seed. We will also add gravel to the shoulders and make sure your driveway entrances are level with the new pavement.

We appreciate your patience as we complete this final phase of the project and thank you for your continued support.

Gary Whitten, Fryeburg Road Commissioner
